Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on April 28, 2005 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In the claim:

Claim 1:

Line 7, after "products;"; insert --determining an infeasible region, the infeasible region comprising conditions where a supply of the components fails to meet a demand for the production;--

Line 10, after "integrals;"; insert --displaying the sum of the multidimensional integrals, wherein the sum of the multidimensional integrals is used for the estimation of mean production for the products.--

Claim 7:

Art Unit: 3623

Line 8, after “products”, insert --determining an infeasible region, the infeasible region comprising conditions where a supply of the components fails to meet a demand for the products--.

Line 11, after “integrals,”, insert -- wherein the sum of the multidimensional integrals is used for the estimation of mean production for the products--.

Claims 13:

Line 7, after “products;”, insert --determining an infeasible region, the infeasible region comprising conditions where a supply of the components fails to meet a demand for the production--.

Line 10, after “integrals,”, insert -- wherein the sum is used for the estimation of mean production for the products --.

Claims 26, line 1, delete “25”, insert --1--.

Claim 30, line 1, delete “29”, insert --13--.

Authorization for this examiner's amendment was given in a telephone interview with Cyrus F. Bharucha on September 29, 2006.

Allowable Subject Matter

2. Claims 1, 3-7, 9-13, 15-18, 26, 28, and 30 are allowed.

Reasons for Allowance

3. The following is an Examiner's statement of reasons for allowance:

The closest prior art is to Huang et al (US Patent No. 6,151,582), and Papageorgiou et al (Faster Evaluation of Multidimensional Integrals). Huang et al teach the creation of an integrated production, sales and inventory plan and provide a projection concerning what is feasible in the production, sales and inventory plan. Papageorgiou et al teach the concept of using multidimensional integrals relating to product production. However, the combination of Huang et al and Papageorgiou et al fails to teach determining an infeasible region, the infeasible region comprising conditions where a supply of the components fails to meet a demand for the production and a sum of multidimensional integrals to estimate of mean production for the products as recited in independent claims 1, 7, and 13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
